

2024 Directory

THE MASTER CHEESEMAKER PROGRAM HAS HELPED WISCONSIN MAINTAIN ITS INDUSTRY LEADERSHIP.

OUR MASTERS BREAK THE MOLD

Wisconsin is the only place in the world outside of Switzerland where cheesemakers can formally become Masters of their craft. Only 96 cheesemakers have earned the Master's Mark®, a testament to the program's high standards and rigor.

OUR MASTERS GUIDE THE WHEY

The program is a major reason Wisconsin wins more awards than any other region on earth, and the Master's Mark® has become a symbol of quality and commitment to producing the best cheeses in the world.

OUR MASTERS REINVENT THE WHEEL

Candidates are taught how to elevate their craft and how to push the artistry of their products, inspiring them to experiment and find new cheese types and styles. The result? Unmatched innovation.

OUR MASTERS ACED EVERY TEST

Only cheesemakers with ten years of certified experience are accepted into the program. Once in, they complete three years of apprenticeship and coursework, culminating in a rigorous written exam.
